DIFFERENTIATED STAFFING

This bibliography and Bibliography No. 16 (forthcoming) are companion bibliographies on staff specialization and utilization in schools. This bibliography is concerned principally with professional staff, but general treatments of staffing dealing with both professionals and paraprofessionals are included here. Bibliography No. 16 will deal strictly with paraprofessional school personnel. While overlap cannot be avoided, neither bibliography duplicates the content of the other.

Sources consulted in preparing this bibliography include the Canadian Education Index (CCRE), the Education Index (Wilson's), the Current Index to Journals in Education (CCM), the Cumulative Book Index (Wilson's), Research in Education (ERIC), Education Studies in Canadian Universities (CEA), Directory of Education Studies in Canada (CEA) and Research Studies in Education (Phi Delta Kappa). The period covered is approximately five years.

Abstracts of material with an ED number may be found in Research in Education. If marked "Available ERIC," hard copy or microfiche copies may be purchased through the Education Document Reproduction Service of the ERIC system.

Material available from the CTF Library is asterisked.
